

## Evaluating Your Leader Wisdom Jig

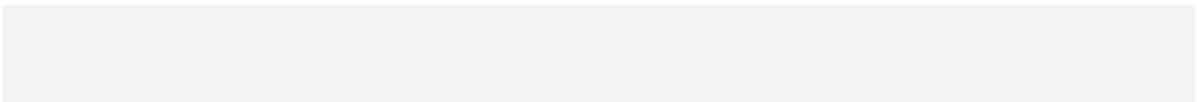

Performance I expect of my leader (behaviors and outcomes to help me be better)

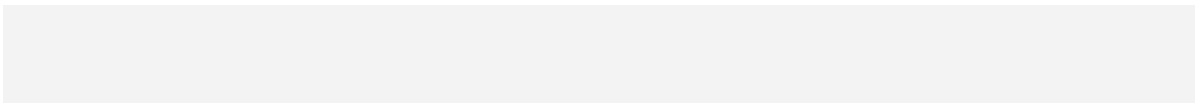

Performance I actually see from my leader

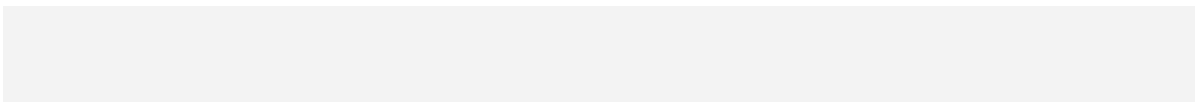

The leader's motivation as best I can imagine it (being generous and thoughtful)

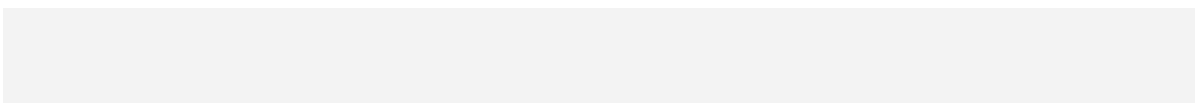

The leader's stewardship of opportunity, time & authority

Clarity of the leader's expectations

The leader's ability - talents, training, tools

## Evaluating Your Leader Wisdom Jig

Lived values or virtues I expect my leader to exemplify

Is there a disconnect between the leader's expected and actual ways of being and actions?

Value 1: Fair Strength (FS)

How they act from FS

How they are not an example of FS

Value 2: Generative Care (GC)

How they act from GC

How they are not an example of GC

Value 3: Wise Balance (WB)

How they act from WB

How they are not an example of WB

## Evaluating Your Leader Wisdom Jig

What do I intend to do about this?

Actions I will take to realize my intentions

--

--

Experiments I will start re: these actions

Dates to review and adjust my experiments
